

Charlton House
Mombay
15 October 1875,

excuse my untidy
note

Dear Ernst,

This is merely a hurried line to tell you that you will receive (probably a few days after this reaches you,) by book post from ^{Spain} England, twelve (12) copies of this printed letter of appeal commencing "Sir", such as ~~you~~ we have sent to all ^{also} private people; and six (6) copies

Professor Haeckel
Jena

of this same letter in which
the "Sir" at commencement
is left out, so as to enable
one to put in any necessary
title, if sending it to those
in high positions where a
mere "Sir" would be inadmissa-

ble. Louie wishes me also
to tell you that we are sending
(book post from England)
of this same post, four spare
copies of this printed letter
to Dr Höhler, - four to Dr Cohen,
& four to Dr Petermann,
in case of their having
private friends whom

They ~~not~~ wish to interest
in the matter by this means,

Trusting that my long letter
sent some weeks since may
have reached you safely,
& merely adding now that I
have written to Leprins
Wichow. Hang on the sub-
ject, always of course men-
tioning you dear Ernst as
the one whose kind help we
have asked as to the practical
management for us in Germany
of this matter.

I will say goodbye.

With hearty Grünspe

Believe me, very sincerely yours

Jermina C. Bleek.

I write in much haste so please
