Chron. No. 4

[see c12-33]

BONN

12 Sept. 1866

Dear Ernst

Wilhelm is very busy learning the Bushman language from suchman prisoners in Cape Town. Be is trying to find out more about this yet almost unexplored language with its various click-sounds. Be asks us to contact Ernst Bübel or one of the zoologists for information or a book on the sounds made by ages : a description of the sounds and how they are produced. Be specifically wants to know whether ages also make click-mounds with their tongues and lips, and how they made these sounds.

If you could find any information, please send me or Wilhelm a copy. It is very important to him.

Your aunt,

Auguste Bleek
