Bunbury
31st March 1891

My dear Mrs. Stocks,

Thank you so much for letting Ireland write to me, though I shall very sorry for the cause of your not being able to write. I do hope by me this Helena has got rid of her rheumatism, and that you are feeling better too.

By this mail I enclose you two receipts one from the Bunbury Municipality and the other the Guardians Assurance, the latter from which notice has been reduced, there are so many fires now that the rates for Insurance have been lowered. On the 1st of April I have removed to Percy Cook, Jun. Repairs to the roof, also attending to fences and drainage and

the rest is still quite fresh

Result, the account will be nearly £4.0.0 which I think considering high as it is for more than three years, with June I will have been four years in Charleston House.

From the Phyloxera Commission I received £5.0.0 which I have spent in repairing the machinery of the hall — how I must tell you the whole story the pump would not work, I sent for Cooke he promised to come, but did not do so, I sent again, his wife said he had gone out for the day, he had my letter in the taxes, so I sent and asked Mr. Lorby if he would just step right for me, he came over at once, found the wood work of the hall all loose, the iron pipe rusted through, and the leathers I have kept as a curiosity, there was no help for it, I had to get the plates fresh bent, the whole cost £8.0.0 £5. I received and the other three I told Mr. Lorby myself Mr. Lorby tells me there is still another pipe which

will have long have to be learned—
I am really glad Cook did not come
when I left for here, he used to be
afraid of going down the hill, and to
every kind of flattering. Thope I did right
and that Jim will approve.
I don't think I shall send a draft in
April, it will be so small an amount
so I will send the two in May.
Please thank Isabel for her kind
letter Thope to answer it soon—
